SURVEYS AND RE-SURVEYS.

S. J. Dennis and Messrs. Miles and St. Cyr, Dominion land surveyors, arrived on Thursday's train with a large party of men to go to work at once re-staking old surveys where the advance of settlement makes it necessary, and afterwards to survey new townships in the Edmonton district. Four parties will be in the field under Messrs. Miles, Hubbell, Gibbons and St. Cyr, respectively. Mr. Dennis will oversee the whole work, which will be at the direction of the land agent, Mr. Anderson. The work will be done in the vicinity of Fort Saskatchewan, in the townships settled by the Parry Sound Colony. Although the government has moved very slowly in this matter it is to be congratulated in having eventually got there so satisfactorily. During the past season the illegibility of the surveys in this district has been a great inconvenience to settlers and a hindrance to settlement.

A rumor is published in the Calgary Herald to the effect that the C. P. R. has bought out the Alberta Railway & Coal Company's property at Lethbridge, including lands, railway and mines.

EDMONTON.

Is splendidly situated on the North bank of the far famed Saskatchewan—one of the most beautiful rivers in the world—It is practically the head of steamboat navigation on the river and is the terminus of the Calgary & Edmonton branch of the C.P.R. It is the centre of the finest grain growing, stock raising and dairying district in Canada. It is the seat of the lumbering industry on the Saskatchewan and is in the centre of and underlaid by the most extensive coal deposits in the known world. The gold washings of the Saskatchewan extend for eighty miles above and below Edmonton. It is the only gateway to the Peace, Athabasca and Mackenzie river regions, which cover nearly one-fourth of the area of Canada. The trade of that vast region—at present the greatest fur producing territory in the world, but with wide areas of agricultural lands on Peace river; the greatest petroleum deposit in the known world on the Athabasca, valuable forests on the Liard, fisheries in its chain of lakes second only to those of the St. Lawrence, and vast deposits of salt, sulphur, copper and iron as well—is handled by and through Edmonton. As the development of the Northwest contributes to the growth of Winnipeg the development of this still greater region must contribute to the growth of Edmonton. The Dominion Lands, Timber and Registry offices for the district of Northern Alberta—nearly as large as the province of Manitoba—are located here. The supreme court holds sittings and the sheriff and clerk of the judicial district reside and have their offices here. The postoffice is a money order office. The government telegraph line from Qu'Appelle and the C. P. R. telegraph line connect here. The town has an excellent telephone service, and an efficient electric light service. The Imperial bank has a branch here. There is a large grist and saw mill at Edmonton, and two saw-mills operated up the river have their yards here. The best brick in the Northwest is made in Edmonton. There are four coal mines within the town limits. There are four churches and two large schools, public and separate, having an attendance of over 150 pupils. Population is increasing rapidly and building operations are brisk, having never ceased since the completion of the railway in August 1891. The town was incorporated in January 1892, and is free from debt.

On Sunday morning, May 1st, at about two o'clock, the Princess opera house, Princess street, Winnipeg, was observed to be on fire. The fire brigade were on the scene within three minutes after the alarm was sounded, but within half an hour the walls of the opera house building fell in, and inside of two hours, by which time the fire was got under control, over \$100,000 worth of property had been destroyed on Princess street, east and west side, Jemima street and Ross street. The insurance did not cover more than \$40,000. No lives were lost or injuries received by persons, although the wind was high and the flames spread quickly.

Calgary Tribune: "During Tuesday's storm a large number of cattle belonging to the ranchers east of Calgary, came down before the storm and many of them were crowded into the Bow river and smothered to death. The ranchers are now engaged in pulling the carcasses out of the river."

The Detroit Free Press contains the following: "There are twenty well built towns in Kansas without a single inhabitant to waken the echoes of their deserted streets. Saratoga has a \$30,000 opera house, a large brick hotel, a \$20,000 schoolhouse and a number of small business houses, yet there is nobody even to claim a place to sleep. At Fargo a \$20,000 schoolhouse stands on the side of a hill, a monument to the bond-voting craze. A herder and his family constitute the sole population of what was once an incorporated city. . . . Those Kansas towns, like Wichita, advertised themselves as phenomenal boom cities. For a while "everything was lovely and the goose hung high," but at last dry rot took hold on the boom towns and killed them."

Decision was given recently in the Batoche election case, by Judge McGuire. Bouchier petitioned to unseat Nolin, who was declared elected and sat during last session of the assembly. The judge unseated Nolin and gave the seat to Bouchier, with the costs on Nolin. The costs will amount to \$700.
